

BRICKWORK TEACHER TRAINING PROGRAM

Certification tracks for educators who want to teach spoken English using the Brickwork method

Program Philosophy

Brickwork's teacher training equips educators to run structured, confidence-building English speaking sessions using the same "one brick a day" philosophy behind the Brickwork app: small, focused corrections that compound into real fluency, rather than overwhelming students with everything at once.

Each track is built for a specific age group's real learning needs — a 9-year-old and a 35-year-old professional need fundamentally different pacing, tone, and classroom management, even when teaching similar English fundamentals. Trainees leave with practical, ready-to-use session structures, not just theory.

Track 1: Young Learners

Age Group: Ages 7–11

₹10,000

Focuses on building English speaking confidence through play, storytelling, and phonics — without academic pressure. Trainees learn to keep young learners engaged while building genuine foundational skills.

Training Modules (10 Sessions)

1. Understanding Child Language Acquisition

How children absorb a second language differently from teens/adults; the role of repetition, rhythm, and low-pressure environments.

2. Phonics-First Teaching

Practical techniques for teaching letter-sound relationships, using games and call-and-response rather than rote drilling.

3. Storytelling as a Teaching Tool

Using narrative structure to teach vocabulary and sentence patterns naturally; running effective read-aloud sessions.

4. Classroom Management for Young Learners

Keeping energy high without losing structure; handling mixed-ability groups; positive reinforcement techniques.

5. Using the Brickwork App with Children

How to integrate the app's Course mode and Phonics section into an in-person or hybrid class structure.

6. Assessment Without Pressure

Tracking progress through observation and play-based checkpoints rather than formal testing, appropriate for this age group.

7. Classroom Management & Behavior

Realistic techniques for keeping energetic groups on task; handling disruptions without shaming a child.

8. Working with Parents

Communicating progress clearly; involving parents in home practice without adding pressure.

9. Differentiated Instruction for Mixed-Ability Groups

Running one session that genuinely serves both stronger and developing speakers.

10. Building Your Own Teaching Practice

Realistic pricing, scheduling, and using certification credibly with parents.

Format & Duration

10 sessions × 2 hours (20 hours total), delivered live online or in-person. Includes a trainer handbook, sample lesson plans for 12 weeks, and a certificate of completion.

Track 2: Teen Learners

Age Group: Ages 14–18

₹10,000

Addresses the specific challenges of teaching teenagers: self-consciousness about speaking mistakes, peer dynamics, and often exam-driven motivation. Trainees learn to build genuine confidence alongside academic readiness.

Training Modules (10 Sessions)

1. Adolescent Psychology & Language Anxiety

Why teenagers often go quiet in speaking practice, and specific techniques to lower the stakes of making mistakes in front of peers.

2. Structuring Speaking Practice for Teens

Using debate, roleplay, and opinion-based prompts that feel relevant rather than juvenile.

3. Balancing Fluency with Exam Pressure

For students juggling board exams alongside speaking practice — how to keep sessions valuable without adding stress.

4. Peer Feedback Techniques

Structured peer-review methods that build community rather than competition or embarrassment.

5. Using the Brickwork App with Teens

Leveraging Grammar Hub, Vocabulary Bank, and IELTS/PTE modules for exam-track students specifically.

6. Motivating Reluctant Speakers

Practical techniques for the common case: a capable student who simply won't speak up.

7. Classroom Management for Teens

Handling phone distractions and apathy without a power struggle; understanding peer group dynamics.

8. Working with Parents & Schools

Communicating progress; coordinating realistically around school and exam schedules.

9. Differentiated Instruction for Teens

Running mixed-level sessions using debate/opinion formats that naturally accommodate different levels.

10. Building Your Own Teaching Practice

Realistic pricing, scheduling, and positioning your certification to parents and teens.

Format & Duration

10 sessions × 2 hours (20 hours total), delivered live online or in-person. Includes a trainer handbook, sample lesson plans for 12 weeks, and a certificate of completion.

Track 3: Adult Learners

Age Group: Ages 18 and beyond

₹10,000

Focuses on workplace-relevant English, professional confidence, and the realities of teaching adult learners who bring existing habits, self-consciousness about their level, and limited available time.

Training Modules (10 Sessions)

1. Adult Learning Principles (Andragogy)

How adults learn differently from children — relevance-driven, self-directed, and often resistant to feeling 'corrected' like a child.

2. Workplace & Professional English Focus

Structuring sessions around real scenarios: interviews, meetings, emails, and professional small talk.

3. Overcoming Adult Speaking Anxiety

Techniques for learners who feel embarrassed about their level despite being fully capable professionals in their own field.

4. Flexible Scheduling for Working Adults

Structuring short, high-value sessions that fit around jobs and family commitments.

5. Using the Brickwork App with Adults

Leveraging Answer-a-Prompt mode, live AI roleplay conversations, and the Grammar/Writing Check tools most relevant to this group.

6. Building a Personal Practice Referral Base

For trainees planning to teach independently — how to structure a small paid practice.

7. Group vs. 1-on-1 Dynamics

How corporate/group training differs from individual coaching, and when to recommend each.

8. Cultural & Professional Sensitivity

Adapting tone and framing for learners from varied industries and seniority levels.

9. Measuring & Reporting Progress

Tracking real progress and communicating it to learners and, where relevant, sponsoring employers.

10. Building Your Own Teaching Practice

Pricing, positioning corporate vs. individual coaching, and using certification as a credibility signal.

Format & Duration

10 sessions × 2 hours (20 hours total), delivered live online or in-person. Includes a trainer handbook, sample lesson plans for 12 weeks, and a certificate of completion.

Track 4: IELTS / PTE Exam Preparation Trainer Certification

Age Group: Trainers teaching exam candidates of any age

₹20,000

A specialized, more intensive certification for educators who want to prepare students specifically for IELTS and PTE Academic. Goes deep into the actual scoring criteria examiners use, not just general speaking practice.

Training Modules (10 Sessions)

1. IELTS Speaking Band Descriptors In-Depth

Fluency & Coherence, Lexical Resource, Grammatical Range, Pronunciation — how examiners actually score, with real annotated sample answers at each band level.

2. IELTS Writing Task 1 & 2 Mastery

Teaching data description structures and essay argumentation; common mistakes that cap scores at band 6.

3. PTE's Automated Scoring Logic

Understanding how PTE's AI scoring works differently from IELTS's human examiners, and coaching students to score well within that system specifically.

4. Running Effective Mock Tests

Structuring full-length practice tests, giving actionable feedback, and helping students track score improvement over time.

5. Common Candidate Pitfalls by Question Type

Task-specific error patterns (e.g., Read Aloud pacing issues, Describe Image structure problems) and how to correct them quickly.

6. Using Brickwork's IELTS/PTE Module as a Trainer

Full walkthrough of the Speaking, Reading, Writing, and Listening modules, and how to assign/track student practice through them.

7. Working with Time-Pressured Students

Prioritizing the highest-impact focus areas when a student has limited time before their exam.

8. Building a Study Plan & Tracking Progress

Structuring multi-week study plans and using band/score checkpoints to track genuine trends.

9. Common Score Plateaus & Breaking Through Them

Diagnosing the real underlying cause behind a stalled score and applying targeted interventions.

10. Building Your Own IELTS/PTE Coaching Practice

Premium pricing, credible marketing of band-descriptor expertise, and standing out from generic exam-prep competition.

Format & Duration

10 sessions × 2.5 hours (25 hours total), delivered live online. Includes a trainer handbook, annotated band-scored sample answers, mock test templates, and a certificate of completion.

Pricing Summary

Track	Age Group	Price
Young Learners Certification (10 sessions)	7–11	₹10,000
Teen Learners Certification (10 sessions)	14–18	₹10,000
Adult Learners Certification (10 sessions)	18+	₹10,000

IELTS/PTE Trainer Certification (10 sessions)	Any (trainer-focused)	₹20,000
---	-----------------------	---------

What's Included in Every Track

- A complete trainer handbook with session-by-session guidance
- Ready-to-use lesson plans and sample dialogues
- Access to the Brickwork app's relevant modules for practice during training
- A certificate of completion upon finishing all sessions
- Ongoing access to updated materials as the Brickwork curriculum evolves
